Connections to The Unidentified

For this assignment you will need to find 3 artifacts from the world around you that connect to the book The Unidentified. These artifacts could connect to conflicts, issues, ideas, and themes that are present in the book.

What is considered an “artifact”? An artifact could be one of the following items: A picture (taken by you or someone else), a poem, a song (lyrics), a movie or tv/video clip, a nonfiction article (from newspaper, a magazine, etc.), a website, another book or story...or something else that you find in the world around you that relates in some thoughtful way to the book.

You need 3 of these items. All 3 need to be different formats. So for example you should not have 3 songs or 2 songs and 1 poem. You could have a poem, a song, and a video clip. Or you could have an article, a book, and a video clip.

For each item you will need to keep track of when and where you located it and you will need to fill out the source information on the handout that is posted to the libguide. (You will need three of these handouts completed when we start school in the fall.)

Then you will need to write about how and why the item connects to the book.

If you can, bring a hard copy of the item to class with you in the fall. If you can’t bring a copy of it to class with you in the fall you still need to fill out the handout about the item and be ready to access it or locate it when you come to class to share it with your teacher and classmates.
